

PRESS RELEASE

R.J. DANCE and Connected Safety Net Celebrate Successful Implementation of Digital Safety and Compliance Management System

Press Release

Connected Safety Net Partners with RJ Dance to Digitally Transform Civil Engineering Operations with AI-Driven Safety and Sustainability Solutions *Innovative SaaS platform to automate compliance, asset management, and carbon footprint tracking for industry leader RJ Dance.*

London, UK – 27th August 2025 – Connected Safety Net (CSN), a leading provider of digital safety and compliance solutions, today announced a landmark partnership with RJ Dance, one of the South East's most respected civil engineering contractors. The collaboration will see RJ Dance fully adopt CSN's Digital Factory platform, automating safety compliance, environmental management, vehicle inspections, asset tracking, and carbon counting to drive operational efficiency and sustainability.

A New Era of Digital Transformation

RJ Dance will leverage CSN's Connected AI Solution to unify its safety and environmental processes, replacing manual workflows with intelligent automation. The Digital Factory will enable seamless integration with RJ Dance's existing systems, providing real-time insights into safety compliance, equipment maintenance, and carbon emissions. Key features include:

- **AI-Driven Safety Compliance:** Automated risk assessments, permit-to-work systems, and incident reporting.
- **Smart Asset Management:** Enabled tracking of machinery and vehicles to optimise utilisation and reduce downtime.
- **Carbon Footprint Dashboard:** Real-time monitoring of emissions across projects to support RJ Dance's sustainability goals.
- **Paperless Inspections:** Mobile-first tools for site inspections, security checks, and quality audits.

Leadership Quotes

Paul Richardson, Group Managing Director of Connected Safety Net, said: *"RJ Dance's commitment to quality and innovation aligns perfectly with our mission to redefine safety and sustainability through technology. Their adoption of our Digital Factory isn't just a step forward – it's a leap into the future of civil engineering. By automating complex processes, we're helping RJ Dance reduce risks, cut costs, and achieve their net-zero ambitions faster than ever."*

PRESS RELEASE

R.J. DANCE and Connected Safety Net Celebrate Successful Implementation of Digital Safety and Compliance Management System

Jamie Larter, Chief Executive Officer of R.J. Dance, said: “Partnering with Connected Safety Net allows us to maintain our legacy of excellence while embracing cutting-edge digital tools. Their platform’s ability to streamline everything from vehicle inspections to carbon counting ensures we continue delivering unmatched value to our clients. This isn’t just an upgrade; it’s a strategic investment in our people, our projects, and the planet.”

Why This Partnership Matters

RJ Dance, a pioneer in civil engineering since 1976, is renowned for its ISO 14001 environmental credentials and relentless focus on quality. By integrating CSN’s solutions, the company will:

- Eliminate manual data entry and reduce human error.
- Achieve full ROI within 4–6 months, per CSN’s proven track record.
- Strengthen compliance with Construction (Design and Management) Regulations (CDM).
- Enhance transparency for public and private-sector clients.

About Connected Safety Net

Connected Safety Net is a UK-based SaaS innovator specialising in digital safety, compliance, and environmental management. Its Digital Factory platform empowers organisations to build custom workflows, automate inspections, and integrate seamlessly with existing IT ecosystems. Clients across industries achieve rapid ROI through reduced administrative burdens, improved compliance, and actionable data insights. Learn more at www.connectedsafenet.com.

About RJ Dance

Established in 1976, RJ Dance is a leading civil engineering contractor serving the South East with six regional bases. The company’s commitment to quality is reflected in its ISO 9001 and 14001 accreditations, investment in staff development, and cutting-edge technology. Services span highway maintenance, traffic management, emergency response, and plant hire, all delivered with a focus on sustainability and community impact. Learn more at www.rjdance.co.uk.
